

**Pilar FRANCO, Ph.D.**

Dr. Pilar Franco is the Head of New Business Development at Chiral Technologies Europe (CTE). She joined CTE in 2002 as a Product Manager having previously worked with Ciba-Geigy (Basel, Switzerland), now known as Novartis, in the team of Dr. Eric Francotte and the analytical R&D Department of Almirall Prodesfarma (Barcelona, Spain).

Dr. Franco earned her Ph.D. in Pharmacy from the University of Barcelona, studying the preparation and use of polysaccharide derivatives as chiral stationary phases for HPLC. As a Marie Curie Fellow from the European Commission, she also performed postdoctoral work on chiral separations with Dr. W. Lindner at the University of Vienna. She has authored more than 50 publications, two patents and seven book chapters in her area of expertise.
